Subject: RE: Odessa Biodiesel (10NV) cost question
Attachments: 10NV_Dec2016.pdf

The 2nd file (2016) was in error. It only included costs that were not included in the 1st file (2015). Attached is all current costs.

Subject: Odessa Biodiesel (10NV) cost question

Hi Gail-

I met with Mike Sibley last month to discuss potential cost recovery at the Odessa Biodiesel Site (10NV). Prior to that meeting, I requested a cost estimate which you sent to me. That 2016 cost estimate had total costs of \$18,046.61. When I met with Mike, he thought those costs sounded very low and that we actually spent closer to \$400,000. I looked back through my files and found a 2015 cost estimate with total costs of \$582,012.16. Both cost estimates are attached to this email: "10NV" is from 2015 and "10NV_Nov2016" is from 2016. Both start at Day 1. Can you help me to understand the discrepancy between these two estimates?

Thanks,
Kris
